I checked the MHI data in the TT report. It does not correspond with 2014 or 2015 MHI numbers from the U.S. Census Bureau ACS reports. They may be using older data (maybe 2010) as they did with population. Because they did not cite where they got the MHI data, there is no way to tell without asking them.

Jeff,

Attached is the 2016 wastewater survey that TT used as the source for MHI and population. Look forward to hearing your thoughts on this.
